DAILY RESEARCH RECOMMENDATION

["INDEX OPTION "] BUY NIFTY 02 DEC 26000 CE @ 110 FOR THE TARGET 130-140-150 SL 70

02-12-2025 **09:57 AM**

Description: Nifty has broken **below 26,140 support**, which is now turning into resistance (you marked it with a blue line). The fall was sharp, and price is currently consolidating near **26,080**. A call option becomes favorable only if the index **reclaims 26,140** or gives a strong reversal pattern, on this behalf I rec CE to Buy

Status- SL HIT 02-12-2025 01.00 PM

["INDEX OPTION "] BUY NIFTY 26200 PE AT 135 TGT 148-166-180+ SL 99

02-12-2025 **12.16 PM**

Description: The NIFTY spot chart shows **lower highs and lower lows**, indicating continued weakness. The 26200 PE chart shows **a pullback after a strong move up**, currently stabilizing around **135**. The price has not broken the intraday demand zone near **131–133**, giving a good risk-reward entry, on this behalf I rec PE to Buy
