

DAILY RESEARCH RECOMMENDATION

["BASIC INDEX "] BUY SENSEX 84500 PE @ 135 FOR THE TARGET 200-250-300 SL 40

11-12-2025

10.20 AM

Description: Price has fallen sharply from the upper resistance zone on SENSEX index (left chart), showing weakness. This supports PE buying. Price has taken support around **135–140 zone**. A bullish candle is forming after a long red fall → **early reversal sign**, on this behalf I rec to PE BUY

Status- 1st TARGET DONE

["BASIC INDEX "] BUY SENSEX 84800 PE @ 135 FOR THE TARGET 200-240-300 SL 30

11-12-2025

12.55 PM

Description: The SENSEX index (left chart) shows a sharp up-move followed by a small pullback. The PUT option (right chart) has dropped significantly and is now showing **base formation near 130–140 zone**, which is a **demand area**. • If SENSEX fails to breakout 84,850–84,900 zone and starts falling, this PE will move sharply. A quick spike is possible once index loses **84,700** support, on this behalf I rec to PE BUY
