

DAILY RESEARCH RECOMMENDATION

["BASIC INDEX"] BUY SENSEX 83600 CE @ 182 FOR THE TARGET 300-350-400 SL 70

05-02-2026

9.21 AM

Description: Sensex holding above 83,600 zone → short-term support intact, Call option already corrected heavily → **risk-reward favorable**, Option chart shows **base formation near 175–180**, If Sensex moves back towards 83,900–84,000, premium expansion is likely, **hence I recommend CE**

Status- sl hit
