

DAILY RESEARCH RECOMMENDATION

["BASIC INDEX"] BUY NIFTY 25500 CE ONLY ABOVE 126 TGT 140-158-166 SL 100

- **Description:** The breakout above ₹126 has clearly triggered — price has already hit the first target (₹140) and nearly tested the second (₹158).
- Momentum looks positive as price is making **higher highs and higher lows** in the short timeframe.

However, there's some resistance forming around ₹150–₹155, corresponding to NIFTY spot resistance near 25,520–25,550. , hence I recommend CE
