

DAILY RESEARCH RECOMMENDATION

["BASIC INDEX"] BUY SENSEX 77200 PE AT 420 TGT 500-580-640 SL 300

Description: • Clear **downtrend** before the bounce

- Current move looks like a **pullback (retracement)**, not a reversal yet
- Price is approaching a **supply/resistance zone** ($\approx 77,000-77,100$), hence I recommend **PE**
